Dear Umar khan

Welcome to CodexCue Internship.

It is with great enthusiasm that we present to you this **offer letter** for the position of **Natural Language Processing** Intern at CodexCue. Your journey with us is not just an internship, it's a vibrant journey of learning and growth in the realm of Software Development.

At CodexCue, we are passionate about nurturing new talents and providing a fertile ground for innovation and professional growth. As a part of our team for the upcoming month, you will be diving into a hands-on experience that is meticulously designed to enhance your skills and imbue you with a wealth of industry knowledge.Your internship is set to be Remote. We value flexibility and adaptability.It's important to note that during your time with us, your role will be that of a learner and a contributor, rather than an employee.If your performance echoes CodexCue's standards of excellence and innovation, you will be in a prime position to be considered for future employment opportunities within our expanding team.

We are excited about the potential to welcome you into our innovative family at CodexCue.

Chief Executive Officer   **Chief Managing Officer**
